APRIL-MAY 1942 WHOLESALE PRICE LIST

R. W. POINDEXTER NURSERY

1000 North Temple Street, Compton, California

U. S. DEPARTMENT OF AGRICULTURE
★ APR 27 1942
U. S. Department of Agriculture

EPIPHYLLUMS --- ORDER NOW!

Now is the time to order these plants which have the most outstanding flowers of all cacti. The blooming season of the various hybrids ranges from the middle of April to the middle of June. Plants can be shipped very satisfactorily in bud to flower upon arrival.

We have one of the largest collections of epiphyllums in the world, listing over 100 different varieties in our retail list. Send for our wholesale list if you do not already have a copy.

The colors are from pure white, pink and all its variations, through deep red and violet. Sizes of the flowers vary from 1 1/2 inches on the small basket type plants to 10 and 12 inches on the large flowering varieties.

Our specimen plants are budded very heavily this year and there will soon be a gorgeous array of color.

PLACE YOUR ORDER IMMEDIATELY!

SALES CONDITIONS: Prices include packing but not transportation costs. Quantities quoted are minimum at these prices. This list is complete as to the stock available at present and supersedes and cancels all previous lists. Cash should accompany order unless goods are shipped c.o.d., or unless credit has already been established. 2% discount will be allowed for cash with order. All material is offered subject to prior sale of stock on hand.

ASSORTMENTS: Many buyers, particularly those who are not familiar with our line of goods, prefer to have us make up an assortment with a view to their particular type of trade. This leeway of choice enables us to give maximum satisfaction by furnishing plants which are looking best at the time the order is made up. All assortments include 100 or more plants and usually 10 of each variety. A dealer is thus able to obtain less than 100 plants of a kind at the 100 price. All plants are labeled unless otherwise specified.

- ALL-IN-ONE ASSORTMENT--50 different varieties of cacti and succulents,
100 unlabeled plants..... \$5.00
This has proven to be our most popular assortment.
- CACTUS ASSORTMENT #1--An economical assortment of small cacti,
100 plants 1" to 1 1/2", 10 or more varieties..... 2.50
- CACTUS ASSORTMENT #2--Larger plants of different species than the
preceding, 100 plants, 10 or more varieties..... 5.00
- COMBINATION ASSORTMENT--25 varieties of both cacti and succulents,
100 unlabeled plants..... 2.50
An assortment giving a wide variety of colorful plants. Especially
adapted to planting attractive dish gardens.
- ECHEVERIA ASSORTMENT--This assortment includes some of the rarer
varieties, 100 plants, 10 varieties..... 2.50
- MINIATURE POT ASSORTMENT--100 plants, 10 unlabeled varieties, none
over 1"..... 2.50

GENERAL PRICE LIST

C A C T I

NOTE: Reference numbers in parentheses refer to illustrations in "Cacti for the Amateur."

	10	100
ASTROPHYTUM myriostigma, "Bishop's Cap," 1".....	\$1.25	\$10.00
BISHOP'S CAP - See Astrophytum myriostigma		
CEPHALOCEREUS senilis, 1".....	1.00	7.50
3½" (50¢ each).....	4.00	----
Genuine "Old Man Cactus." Every collector wants an old man cactus and even people who "don't like cactus" will buy this plant as there is nothing more striking in the entire plant world. The sizes given are of the <u>plant body</u> as this is the standard way of measuring all plants. However, the fluffy, white hair, from one-half to one inch in length, makes these plants appear larger than the specified size. For example, the 1" size gives the appearance of being 1½" to 2" tall because of the length of the hair. (Pl. 20)		
CLEISTOCACTUS baumannii, 2" to 3".....	.40	3.00
Columnar plants attractively spined; flower freely when mature with bright red flowers resembling firecrackers. (Pl. 28)		
ECHINOPSIS hybrid, 1" seedlings.....	.35	2.50
4" to 5" blooming size plants.....	1.50	----
Attractive, dark green, globular plants.		
EPIPHYLLUM - See our 1942 supplementary list, now is the time to place your order		
FEROCACTUS alamosanus, 1".....	.60	5.00
Ribs widely spaced; few spines; clean looking, bright green; globular.		
HARRISIA martinii, 2" to 4" seedlings.....	.35	2.50
Very good for tails. (Fig. Pg. 23)		
LEMAIREOCEREUS beneckeii, 2½".....	1.50	----
A plant of distinction; the new growth is covered with a heavy coat of silvery white powder. (Pl. 26)		
L. pruinosis, 1".....	.35	2.50
Four-sided with pronounced angles. Becomes frosted white in color when grown under glass.		
L. weberi, 1½" to 2".....	.35	2.50
Columnar type; dark maroon with soft, light colored spines.		
LOBIVIAS, assorted, at least 8 different, labeled species from 1" to 1½".....	----	5.00
MAMMILLARIA bocasana, 1" seedlings.....	.75	----
Entire plant covered with fine, silky, white hair.		
M. compressa, 1".....	.60	5.00
(Fig. Pg. 43)		

	10	100
Mammillaria decipiens, 1".....	\$.60	\$5.00
Flowers profusely over a long period with small, cream-colored flowers.		
M. durispina, 1".....	.60	5.00
M. elongata, 1½" with small offsets.....	.60	5.00
Bright yellow spines. (Pl. 100)		
M. elongata var. minima, 1½" with small offsets.....	.60	----
Always a good seller.		
M. elongata var. stella aurata, 1½" with small offsets.....	.75	6.00
Golden spines.		
M. klissingiana, ¾".....	.75	----
M. microhelia, 1" seedlings.....	1.00	----
M. prolifera, 1½".....	.60	5.00
Miniature, wooly plant; clusters freely when small, giving the appearance of a little mound of grayish wool. (Pl. 97)		
MELOCACTUS intortus, "Turk's Turban," 1".....	1.25	----
NOTOCACTUS mammulosus, 1½".....	1.00	7.50
Large, yellow flowers. Many plants are in bud now. Very attractive plant with short, stiff spines on dark red plant body.		
N. ottonis, 1½".....	1.00	7.50
Attractive spines on dark green plant.		
OLD MAN CACTUS - See Cephalocereus senilis		
OPUNTIA microdasys, rooted cuttings.....	.30	2.00
unrooted cuttings.....	----	1.25
Small, flat stems dotted with yellow clusters of small spinelets. Very popular. (Pl. 17)		
O. vilis, 2½" branched, rooted cuttings.....	.35	2.50
unrooted cuttings.....	----	1.50
Cylindrical trunk; branches like a small tree.		
OREOCEREUS trollii, 1½".....	.90	7.50
Columnar plant covered with long, white, silky hairs, particularly at the tip. Very desirable.		
PHYLLOCACTUS - See special epiphyllum list		
STENOCACTUS lamellosus, 1".....	1.00	7.50
TURK'S TURBAN - See Melocactus intortus		

S U C C U L E N T S

NOTE: Reference numbers in parentheses refer to illustrations in "Succulents for the Amateur."

	10	100
ADROMISCHUS clavifolius, 1".....	\$.35	\$2.50
(Fig. 141)		
AEONIUM arboreum, 2" unrooted cuttings.....	----	.60
(Fig. 207)		
A. decorum, rooted cuttings.....	.25	1.50
Bright red-edged leaves in rosette form. (Fig. 207)		
A. sedifolium, 2½" branched, rooted cuttings.....	.25	1.50
(Fig. 207)		
AFRICAN LIVING ROCK - See Pleiospilos nelii		
ALOE brevifolia, 2" rooted cuttings.....	.35	2.75
A. ferox, 1½" seedlings.....	.40	3.00
A. hybrid hum-vir, rooted cuttings.....	.35	2.50
This plant is distinct because of the wiry, hard texture of its leaves.

	10	100
Aloe vera, 8" to 12" unrooted offsets.....	\$1.00	\$7.50
This plant is in great demand because of the medicinal use of its leaves for curing X-ray and other burns. (Fig. 237)		
CHEIRIDOPSIS aspera, rooted cuttings.....	.25	1.50
Round leaves roughened by small, white dots. Tips of leaves become purple during summer months. (Fig. Pg. 40)		
C. candidissima, 1½".....	.60	5.00
Beautiful, rare species. Small clumps of silvery gray leaves tipped with purple. (Fig. 86)		
CORN COB CACTUS - See Euphorbia submammillaris		
CRASSULA imperialis, branched, rooted cuttings.....	.35	2.50
Similar to C. lycopodioides except that the stems are twice as thick and the plant branches more freely.		
C. lycopodioides, rooted cuttings.....	.20	1.20
(Pl. 40)		
C. orbiculata, 1½" rooted cuttings.....	.30	2.00
C. tetragona, rooted cuttings.....	.20	1.20
3" unrooted cuttings.....	----	.60
(Fig. 151)		
ECHEVERIA elegans, 2" rooted cuttings.....	.35	2.50
Very attractive, compact, silvery white rosette. (Fig. 159)		
E. hybrid pulv-oliver, rooted cuttings.....	.35	2.50
E. hybrid set-oliver, rooted cuttings.....	.35	2.50
Very attractive plant, similar to E. setosa except the leaves are longer, thinner and tipped with red.		
E. morganiana, 2".....	1.50	----
E. multicaulis, rooted cuttings.....	.35	2.50
Leaves almost round, reddish, metallic. (Fig. 162)		
E. perbella hybrid, rooted cuttings.....	.35	2.50
unrooted cuttings.....	----	1.50
Grows exceptionally well. Very firm, light green leaves.		
E. pulvinata, 3" rooted cuttings.....	.75	----
Thick, oblong, flattened, velvety, dark green leaves edged bright red. Flowers brilliant red on short, compact stalks. Choice, distinctive. (Fig. 166)		
E. setosa, 2½".....	.60	5.00
Rosette of green leaves covered with short, shiny, white hairs. (Fig. 170)		
E. simulans, 3" rooted cuttings.....	.35	2.50
Light yellow-green, thick leaves tinged with red.		
EUPHORBIA hermentiana, 4" to 5" rooted cuttings.....	.60	5.00
Three-angled, columnar plant with marbled surface and ornamented with small rows of leaves on the angles.		
E. squarrosa, 2" seedlings.....	1.50	----
Rare, slow growing plant forming head of flattened, dark, laquered stems. (Fig. 232)		
E. submammillaris, 2" to 2½" rooted cuttings.....	.35	2.50
1½" unrooted cuttings.....	.25	1.50
Called the "Corn Cob Cactus" because it looks like a small, green, corn cob. Very popular.		
FAUCARIAS, assorted 1½" seedlings.....	.40	3.00
Unlabeled assortment to include several types of beautiful seedlings in exceptionally good condition.		
F. albidens, 1½" seedlings.....	.40	3.50
Smooth, greenish leaves edged with narrow, white line on margin. (Fig. 93)		

1.50	100	Also very 8" to 12" unrooted offsets.
1.50	100	This plant is in great demand because of the medicinal use of the leaves for making X-ray and other dyes (Fig. 137)
1.50	100	ERUBICOLA aspera, rooted cuttings. Tips of leaves have purple tinge during winter months. (Fig. 140)
1.50	100	ERUBICOLA aspera, rooted cuttings. Small stems of silvery grey leaves tipped with purple. (Fig. 141)
1.50	100	ERUBICOLA aspera - var. ERUBICOLA submarginata. Branches, rooted cuttings. Similar to C. hypoleuca except that the stems are white at base and the plant branches more freely.
1.50	100	C. hypoleuca, rooted cuttings. (Fig. 142)
1.50	100	C. hypoleuca, rooted cuttings. (Fig. 143)
1.50	100	C. hypoleuca, rooted cuttings. (Fig. 144)
1.50	100	ERUBICOLA aspera, 8" rooted cuttings. Very attractive, compact, silvery white rosettes. (Fig. 150)
1.50	100	ERUBICOLA aspera, rooted cuttings. Hybrid between ERUBICOLA aspera and ERUBICOLA aspera. Very attractive plant, similar to ERUBICOLA aspera except the leaves are longer, thicker and tipped with red.
1.50	100	ERUBICOLA aspera, rooted cuttings. (Fig. 151)
1.50	100	ERUBICOLA aspera, rooted cuttings. (Fig. 152)
1.50	100	ERUBICOLA aspera, rooted cuttings. (Fig. 153)

	10	100
Faucaria bosscheana, 1 $\frac{1}{2}$ " seedlings.....	\$.35	\$2.50
The smallest <i>Faucaria</i> . Short, dark green leaves with a thin, white edge.		
F. tigrina var. superba, 1 $\frac{1}{2}$ " seedlings.....	.50	4.00
"Tiger's Jaw." Leaves marbled gray-green with white teeth, whence the name. These are exceptionally fine seedlings of this popular plant.		
F. tuberculosa, 1 $\frac{1}{2}$ " seedlings.....	.60	5.00
Rare species with white-brown leaves thickly covered with large tubercles, white dot in center, white teeth on ridges. (Fig. 93)		
GASTERIA hybrid, 1 $\frac{1}{2}$ " seedlings.....	.40	3.00
Dark, shiny green from selected, fast-growing seeds.		
HEREROA doliabriformis, 2 $\frac{1}{2}$ ".....	.40	3.00
Dark green clumps; each leaf flattened and notched on the ends like elk horns.		
INCH WORM - See <i>Kleinia pendula</i>		
KALANCHOE pilosa, 1 $\frac{1}{2}$ " to 2".....	.60	5.00
(Syn. <i>K. tomentosa</i>) "Plush Plant." Attractive, white, thickly felted leaves, scalloped tips marked with distinct brown spots. These unusual characteristics sell this plant on sight. (Fig. 185)		
KLEINIA pendula, 2" rooted cuttings.....	1.00	----
Very well described by the common name "Inch Worm." Grows in a series of arches, rooting wherever it touches the ground. (Fig. 136)		
K. tomentosa, 2" rooted cuttings.....	.60	5.00
Rare, slow growing plant with spindle-shaped, succulent leaves completely covered with silvery white down. A showy plant. (Pl. 36)		
PACHYPHYTUM compactum, 1 $\frac{1}{2}$ ".....	.60	5.00
Close-set, cylindrical, blue-gray leaves with silvery white markings give the plant an angled effect. (Fig. 174)		
PACHYVERIA hybrid orpetii, 2 $\frac{1}{2}$ " rooted cuttings.....	.35	2.50
Oblong, rounded, bluish leaves overlaid with white powder.		
P. scheideckeri crest, 2 $\frac{1}{2}$ ".....	.40	3.00
PLEIOSPILOS nelii, "African Living Rock," 1".....	.60	5.00
PLUSH PLANT - See <i>Kalanchoe pilosa</i>		
PORTULACARIA afra, rooted cuttings.....	.25	1.50
unrooted cuttings.....	----	1.00
Small, shiny leaves on reddish stems, branching like a small tree. (Fig. 264)		
P. afra variegata.....	1.00	8.00
Small, compact, bushy plant. Stems red; leaves round, waxy, yellow edged with brick red. Grows easily and holds up well.		
SEDUM adolphii, rooted cuttings.....	.30	2.00
Colorful, waxy, yellow, thick, oblong leaves. (Pl. 51)		
S. altissimum var. latifolium, rooted cuttings.....	.20	1.20
unrooted cuttings.....	----	.60
Bluish green; clumps rapidly. (Fig. 195)		
S. amecamecanum, rooted cuttings.....	.20	1.20
unrooted cuttings.....	----	.60
Similar to <i>S. confusum</i> but with smaller, more abundant leaves.		
S. confusum, unrooted cuttings.....	----	.60
S. guatemalense, rooted cuttings.....	.20	1.20
unrooted cuttings.....	----	.60
Stems densely covered with berry-like leaves, shiny green tinged red; cuttings root immediately. (Fig. 195A)

Sedum lineare var. variegatum, rooted cuttings.....	\$.20	\$1.20
Fine, green and white leaves; erect growth. (Fig. 195)		
S. moranense, rooted cuttings.....	.20	1.20
Gives appearance of compact, dark green, dwarf shrub; purplish maroon if grown in sun. (Fig. 199)		
S. multiceps, 1½" to 2" well branched.....	.35	2.50
Small plant forming a perfect replica of a tiny Japanese, dwarf, pine tree. (Fig. 195)		
S. oxacanthum, rooted cuttings.....	.20	1.20
Dwarf plant, branches freely; leaves gray-green, rounded.		
S. pachyphyllum, rooted cuttings.....	.20	1.20
(Fig. 195A)		
S. spathulifolium, branched, rooted cuttings.....	.30	2.00
Small plant, branching freely. Olive green leaves overlaid by white powder. (Fig. 198)		
S. stahlii, rooted cuttings.....	.20	1.20
Stem thickly covered with small, dark red, round, bean-like leaves. (Fig. 195A)		
S. winkleri, rooted cuttings.....	.25	1.50
Small, light green rosettes. (Fig. 196)		
SEMPERVIVUM calcareum, 1½" to 2".....	.30	2.00
Elegant, small, rosette plant with numerous short, broad, gray leaves sharply tipped with dull crimson. (Fig. 213)		
S. montanum, 1".....	.30	2.00
Small, hard type with wool on the margins and tips of the leaves. (Fig. 214)		
TIGER'S JAW - See <i>Faucaria tigrina</i> var. <i>superba</i>		
UMBILICUS chrysanthus, 1" rooted cuttings with small offsets.....	.25	1.50

*****BOOKS EVERY DEALER SHOULD HAVE*****
